Money Making Concepts

2nd
Market Structure -> Fair Value Areas

What are the PD Arrays?

1. Fair Value Gap
2. Fair Value Area
3. Swing Points

Market Structure

1

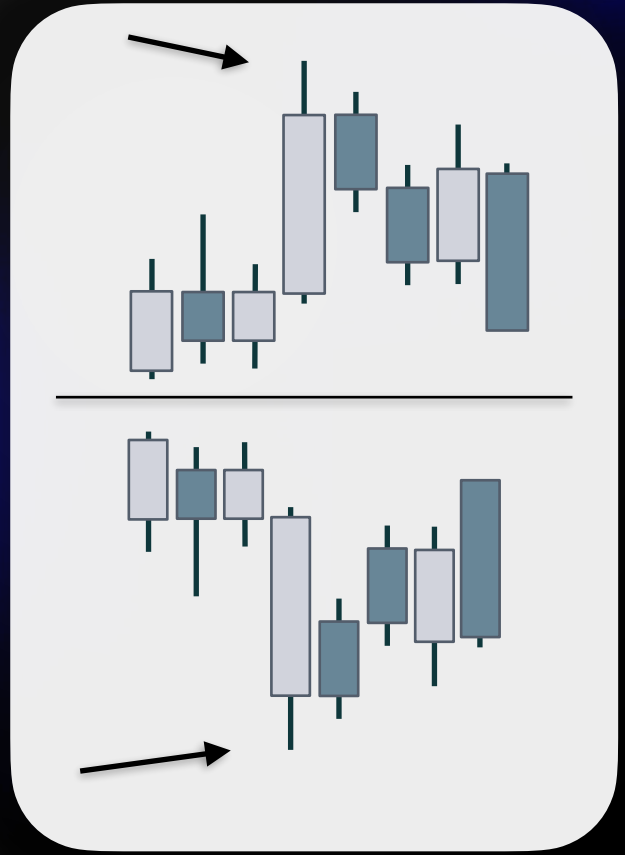
ITH / ITL

Intermediate Term High / Intermediate Term Low

2

STH / STL

Short Term High / Short Term Low
Will be discussed in the Order Flow video



ITH / ITL

ITH

- Swing High with a Lower Swing High to the Left and Right

ITL

- Swing Low with a Higher Swing Low to the Left and Right

Bearish / Lower Trend

- ITH will be protected

Bullish / Higher Trend

- ITL will be protected

Price is always moving towards a PD Array, it's our job to find out which PD Array is next.

Swing Points / FVGs
Daily Timeframe

ITH / ITL
4h / 1h Timeframe

What’s then the Fair Value Area?

1. **Market Structure**

   From the ITH to the ITL and vice versa.

2. **Order Flow**

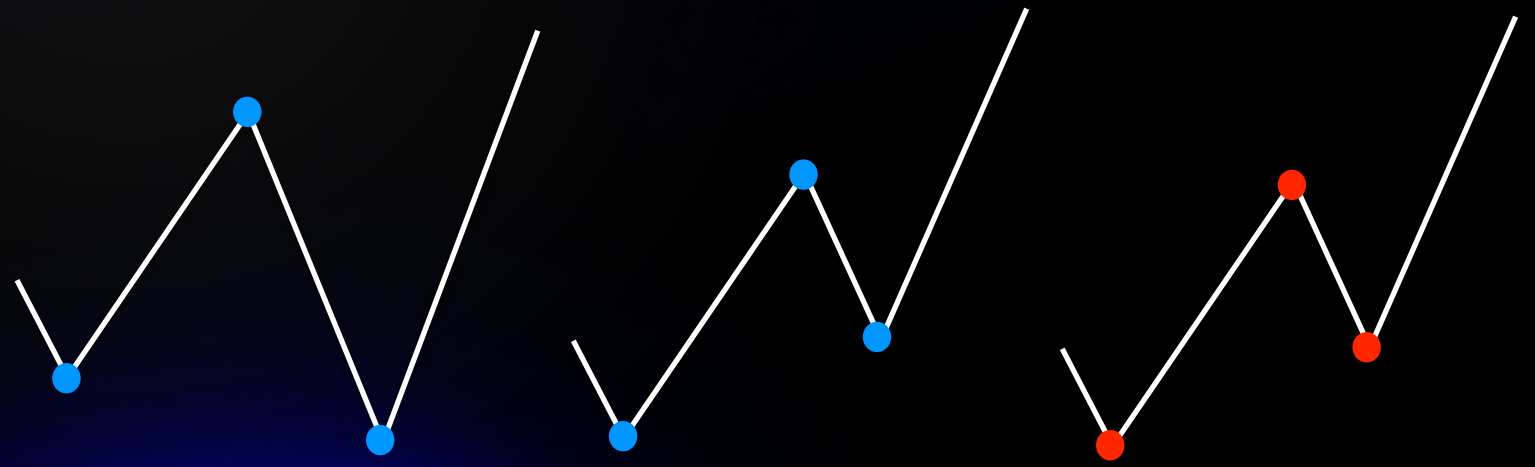
   From the STH to the STL and vice versa.

What’s then the Fair Value Area?

3

Fair Value Area

3 Swing Movement



Case Study

Mark out the Swing Points and FVGs on the Daily chart. Then go down timeframes to see the Market Structure.
