Order Flow

Candle Science

## FLOD / OD<sub>(OLOD)</sub> / LLOD

---

Breaking down an Order Flow Leg

- It has all 3 PD Arrays
- 1) First Line Of Defense (FVG)
- 2) Overlapping Defense (FVA)
- 3) Last Line Of Defense (Swing Point)

## LLOD (Last Line Of Defense)

---

A swing point, the last area we can still continue lower/higher from.

Best to worst:

- 1) No FVG in the leg
- 2) FVG in the leg

Order Flow

Candle Science

# Order Flow Sweep

---

Swing Low without FVG, the Low is what we can sweep to continue higher.

Sweep seen through 2 lenses:

- Respect Candle (Candle Science)
- Order Flow Legs going lower then Higher

# Candle Science Sweep

---

1st Candle doesn't reject -> PCL Sweep

Sweep seen through 2 lenses:

- Respect Candle (Candle Science)
- Order Flow Legs going lower then Higher
