5th

Narrative -> FLOD/OD/LLOD

Direction - Bias

Are we going higher or lower?
The PD Array to trade towards.

Narrative

If we're going higher, where are we going higher from?
The PD Array to trade from.

Order Flow Leg

Breaking down an Order Flow Leg

- It has all 3 PD Arrays
- 1) Swing Point
- 2) Fair Value Gap
- 3) Fair Value Area

Order Flow tells us what PD Array we can trade towards and what PD Array we can trade from

FLOD / OD_(OLOD) / LLOD

Breaking down an Order Flow Leg

- It has all 3 PD Arrays
- 1) First Line Of Defense (FVG)
- 2) Overlapping Defense (FVA)
- 3) Last Line Of Defense (Swing Point)

FLOD (First Line Of Defense)

The first PD Array we run into when we create a retracement.

Best to worst:

- 1) Fair Value Gap
- 2) Fair Value Area

OD (Overlapping Defense) (OLOD)

The first area we retrace back into where 2 PD Arrays are overlapping.

Best to worst:

- 1) Fair Value Area
- 2) Fair Value Gap

LLOD (Last Line Of Defense)

A swing point, the last area we can still continue lower/higher from.

Best to worst:

- 1) No FVG in the leg
- 2) FVG in the leg

Case Study

Study FLOD/OD/LLOD in your chart and see where it holds and where it doesn't.
