EURUSD 2011

Lawgirls's MA

Using Daily for direction and 4H as entry.

200,3,8 EMA.

Daily chart: when 3 & 8 is above 200 EMA i look on
4H to trigger entry, when 3 & 8 is crossing
and above 200.

Has it crossed then i buy immediately.
I stop out when it crosses back on the 4H again.

I have used 1.0 lot in this test.
